Dear Sir or Ma'am:

I've received a letter which told me that my patent application has been published on USPTO's website. But when I called to USPTO, I was told by USPTO employees many times that my application still pending with assigning a examiner for the patent. I hope you would accelerate the process as soon as possible to shorten the time for passing my patent, since it was filled on 12/04/2003! It's been too long from my filling date.

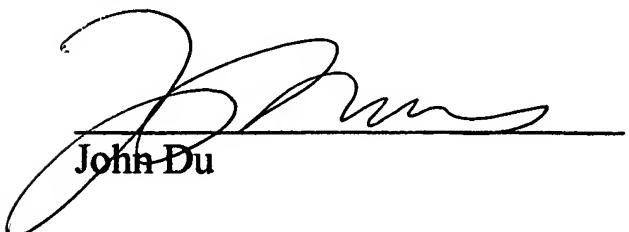

Thanks!

My Application No. 10/726,908.  
Publication No. 20060199469.  
Filling Date: 12/04/2003.  
Art Unit: 3712.

Application Title: Launching Device and Disposable Cartridge  
Containing Confetti, Paper or Fluid.

Thanks!

Best Regards,

John Du
